

Web Backup Service

Don't get caught without your Condo Manager Data! Our Web Backup service provides you peace of mind.

Making data backups is essential and should be done on a regular basis. Computer hard disks fail and are not always dependable. Corrupted data, bad disk sectors or erased files are common with computers. Think of the time and energy you have used to place your data in the files of Condo Manager – all that work has been a waste if the data are lost!

That's why we have developed a solution that will allow you to avoid the "what if" situation of lost data. The solution is our **Web Backup Service**. This low cost service allows the periodical backup of your data in our system. This service is automatic and occurs each time you close the software. Even if your computers were burned, stolen or the hard drive failed, your data is safe and secure in the Condo Manager backup service.

All files are encrypted, compressed and provide the best in security!

Web Backup Service Advantages:

- Allows Condo Manager users to save their associations' data on our server
- The web backup service is automatic, no additional steps are required
- Safe and confidential backups of all your data
- No technical skill needed - our program does it all!

Confidential

Data are encrypted (128 bits) before being sent to our server
